

# Fleet Electrification Coalition at Smart Freight Week

Fleet Electrification Coalition helps shippers and fleet owners to electrify their fleets, aiming to enable 30% zero-emission truck sales by 2030 and 100% by 2040 globally

## FEC goals

Accelerate e-truck deployment through shipper demand aggregation, sending joint signals to carriers, policymakers, manufacturers, investors, and infrastructure providers.

Channel demand for e-trucks towards collaborative projects and partnerships.

Promote solutions for shared and public charging infrastructure.

Advocate for policies that incentivize e-truck adoption.

Activate an investor network to scale up e-truck project finance and deployment.

### Tuesday, April 23

**Fleet Electrification Coalition: Road to Action** (14:20 – 15:20, Plenary)  
- Panel Session

**Energizing Innovation for Shared and Public Charging for Electric Trucks** (15:40 – 16:55, Sub 1)  
- Working Session

### Wednesday, April 24

**Scaling Finance for Zero-Emission Trucks** (09:00 – 10:15, Sub 1)  
- Panel Session

**Technology and Policy for Zero Direct CO2 Emissions Vehicles in Road Freight** (13:30 – 14:30, Sub 7)  
- Panel Session

**Electrifying Drayage: A Roadmap to Cleaner Ports** (15.15 – 16.15, Sub 1)  
- Panel Session

**How can Industry Leadership Strengthen Truck Electrification Policies?** (16:30 – 17:30, Sub 1)  
- Panel Session

### Thursday, April 25

**Designing & Scaling Up Electric Truck Pilot Projects** (09:00 – 10:15, Plenary)  
- Panel Session

**India: Innovating Financing and Ownership Models for Electric Truck Adoption** (10:30 – 11:30, Sub 2)  
- Working Session

**Guiding Fleet Electrification Towards a Collaborative Ecosystem** (11:40 – 12:30, Sub 1)  
- Working Session

**India: Unlocking ZET Demand in India: The e-FAST learnings** (11:40 – 12:30, Sub 2)  
- Panel Session
